- **IMS Calendar Display**

  This new classic calendar format allows IMS users to view classes and events using month, week, or day views. The calendar includes controls to easily toggle between the List and Calendar views, as well as color coding to quickly identify events that are available for registration, closed, or for which the user has already registered.

Also included in this release…

- **Expanded MLS ID Field Length**

  The MLS ID field length has been expanded from 9 to 50 characters and is configurable to accommodate your organization's MLS rules.

- **Version 7 MLS File Layout**

  The standard version 7 file layouts for offices and members have been modified to communicate up to a 50 character MLS ID.

- **Dues & Contribution History**

  The "Billed To" member number and full name fields have been added to the Dues & Contribution History form. If the office broker was billed for non-members within his office, then dues history will indicate that the incurring non-members have paid.

- **Data Exchange**

  The field length for Last Name has been increased from 17 to 30 characters.

- **Financial Transmittal**

  Incurring member to financial transmittal formatting has also been added to this latest version.
