

## Release Highlights 2.6.9

Rapattoni *Magic*-Cloud AMS 2.6.9 is coming soon! This exciting new version will give your association access to the enhancements listed below.

The following enhancements have been implemented in version 2.6.9:

- **UPDATE! “Issue Credit” Changes**
- **UPDATE! Member Portal “Manage Credit Cards” and Autopay Redesign**

### UPDATE! “Issue Credit” Changes

The **New Credit Card** radio button has been removed from the **Issue Credit** form. This change was implemented to coincide with Ecommerce’s new gateway that prevents users from issuing a credit to a different credit card other than the one originally used to make the purchase.

### UPDATE! Member Portal “Manage Credit Cards” and Autopay Redesign

The **Credit Card Information** page on the Member Portal has been updated with a new look and updated functionality that prevents users from enabling autopay for a card that has already been assigned to an invoice type. Users will receive a warning message if they attempt to assign a new credit card to an invoice type that has been previously assigned to a different credit card. This includes modifying an existing card that has also been previously assigned to an invoice type. Users will be prompted to click the **Save Card** button to overwrite the existing invoice type assignment or click the **Cancel** button to go back to the **Manage Credit Cards** page.

A screenshot of the "Manage Credit Cards" interface. The page title is "Credit Card Information" and the main heading is "Manage Credit Cards". There is a green "+ Add Credit Card" button in the top right. Two credit cards are listed. The first is a VISA card with a masked number ending in "1111" and an expiration date of "07/37". It has "Autopay" set to "Yes", "Web Default" set to "No", and "Keep On File" set to "Yes". It also has "MLS Participation Fees" and "Membership Dues" checked. The second card is a Mastercard with a masked number ending in "4444" and an expiration date of "03/33". It has "Autopay" set to "No", "Web Default" set to "No", and "Keep On File" set to "Yes". Both cards have "Billing Name" and "Billing Address" fields, and "Update" and "Delete Card" buttons.

As always, if you have any questions on these features or any other programs or processes in Rapattoni *Magic-Cloud* AMS, please don't hesitate to reach out to our support team at 1-866-730-7115 or via email to [support@rapattoni.com](mailto:support@rapattoni.com).
