Release Highlights 2.5.3.06

Rapattoni *Magic*-Cloud AMS 2.5.3.06 is coming soon! This exciting new version will give your association access to the enhancements listed below.
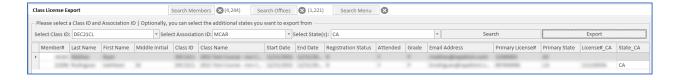

The following enhancements have been implemented in version 2.5.3.06:

- **NEW! Class License Export**
- **UPDATE! Increased Number of Upcoming Events and Classes Displayed on the Member Portal Home Page**

NEW! Class License Export

A new Class License Export option has been added to Cloud AMS, allowing associations to export education details for members that register for classes with additional license information for the registrants.

This option is useful for associations that need to track additional license information for members from different states when they register for classes and is helpful in streamlining the process of reporting to the various real estate commissions.

UPDATE! Increased Number of Upcoming Events and Classes Displayed on the Member Portal Home Page

With this enhancement, the Upcoming Events and Classes section on the Member Portal home page now displays up to 25 available events and/or classes, with a new "View More" button at the bottom allowing users to search for any additional events or classes on the calendar.

As always, if you have any questions on these features or any other programs or processes in Rapattoni *Magic*-Cloud AMS, please don't hesitate to reach out to our support team at 1-866-730-7115 or via email to support@rapattoni.com.

Rapattoni *Magic*-Cloud AMS Maintenance Report
2.5.3.06

This report is designed to inform Cloud AMS key contacts of software maintenance items. Please note that this report may not be a complete list and that items affecting only one Cloud AMS customer may not be included in this report.

The following maintenance items have been implemented in version 2.5.3.06.

Managers

- **Inventory Group Information Form.** Previously, the Inventory Group Information form was displaying an incomplete file path causing the Item Picture Detail to not display properly in the Member Portal. This issue has been fixed and now the file name and extension display properly in AMS and the Member Portal.

Member Portal

- **Course Certification Information Credits.** Following a previous upgrade, the Credits field on the Course Certification Information form was rounding the field's value up to the nearest whole number when a decimal was entered. This issue has been resolved and the Credits field will now retain the value entered up to the hundredth decimal place.

- **Member Portal Display on Mobile Device.** When accessing the Member Portal from an Apple mobile device, the display was not scaling properly and cutting off the "Pay Now" button. This issue has been fixed and the Member Portal will now scale properly when viewing on an Apple mobile device.
