Subject: Correction: New Listing Status for Greater Northwest Indiana Association of REALTORS®

*****CORRECTION:** Please note that the live date for these changes has been updated to be Wednesday, 4/22/2020***

Dear RETS Key Contact:

On Wednesday, 4/22/2020, Rapattoni will add a new “Active-No Showing” listing status for the Greater Northwest Indiana Association of REALTORS® MLS.

This new On Market status will have a coded value of “B” and indicates that the seller wants to continue having their property exposed on the open market, but due to the COVID-19 outbreak, is not showing their property to prospective buyers at the present time. As is customary with other On Market listing statuses, the Days On Market (DOM) and Cumulative Days On Market (CDOM) will continue to accrue for this new “Active-No Showing” status.

Sincerely,

Brian Tepfer
Executive Vice President and Chief Technology Officer
Rapattoni Corporation
