

Dear RETS/MLS Key Contact:

This is to notify you that setup changes will be installed **Tuesday, January 16, 2017**.

Please be advised that Rapattoni's RETS notifications are now available via RSS. In addition to the Monthly Major Changes, we will also send out notices when there is Scheduled Maintenance Downtime or for MLS Major Changes that are slated to be fast-tracked. You can subscribe to our RSS feed from the Notifications page of our RETS Resource Center.

In addition, minor changes to the Metadata-Lookup_Type table, which are not listed here, may be implemented when requested throughout the month. Therefore, RETS vendors and third parties who access an MLS's RETS data should update their metadata.

The following items will be additions or modifications to other metadata tables:
